eco SaaS Service

- **Save up to 35% of color ink usage and cost**
- **Improve color quality**
- **Minimize set-off and rub-off**
- **Reduce your carbon footprint**
- **Pay only as you save**

With OnColor ECO SaaS (Software as a Service) solution you can enjoy all the benefits of less ink cost and higher print quality without any up-front cost.

making complex publishing simple

All communication with the OnColor ECO SaaS server and all access to customer data over the Web is **secured** using industry standard public-key encryption (SSL). Only authorized authenticated users can access their online account, and only activated and authorized OnColor ECO SaaS applications can upload files for processing.

ECO SaaS is a Cloud Service that allows you to process your color pages over the WEB (using **OnColor ECO** application in the background) without having the need to purchase the application itself. There are no service contracts or long term commitments. You are charged by the number of files you choose to submit, no strings attached. You get the benefit of using professional ink optimization solution without having to buy any software or hardware, offering an **immediate ROI.**
